

Robust and configurable devices deliver fantastic performance particularly when **processing power, graphics-handling capabilities and hi-res multi-monitor arrays are required**

KEY FEATURES

- Chipset**
 - Q670(Contact ClearCube for other chipset/motherboard options)
- CPU**

Intel 12th-14th Gen

 - i3 14100
 - i5 14500
 - i9 14900
 - SecureBoot
 - TPM 2.0
- Video**

EdgeCube Pro

Standard - 3 x4K video

With GPU - 7 x 4K video (3 from motherboard)

- External Ports**

2 x DP

1 x HDMI

3.5mm Mic + 3.5mm Speaker

2 x 2.5Gbps RJ45 Ethernet

4 x USB 3.2 (Gen 2) Rear

2 x USB 3.2 (Gen 1) Front

Optional COM port

- Front Panel Options**

Removable Drive Bay

SmartCard Reader (limited to i5 processor and below)

TECHNICAL SPECS

- Physical Characteristics**

Metal housing
- Storage**

2280 M Key

2242 M Key (GEN4+ SATA)

2.5 Drive
- Memory**

64GB
- Network**

2 x RJ45 2.5Gbps

1 x SFP Fiber (Optional)
- Operating System**

Windows 11 Pro

Linux

IGEL OS
- Operational Environment**

Humidity: 5% to 90% non condensing

Temperature: -20C to 70C (Note that hotter environments may require dropping CPU wattage if heavy loads are expected)
- Optional Expansion Cards ***

NVIDIA RTX Pro 4000 Blackwell SFF

NVIDIA RTX 2000 Ada

NVIDIA RTX A1000

NVIDIA RTX A400

Dual 10Gbps Fiber (SFP+)

Dual 25Gbps Fiber (SFP28)

Removable M.2

Part Number Part Description

G0901200 - EdgeCube

RevM10232025

TECHNICAL
SPECS

Weight

4.51 lbs.
(2.04 kg)

Dimensions

2U

3.4" (H) x 8.5" (W) x 8" (L)

Storage Environment

Humidity: 5% to 90% non condensing

Temperature: -40C to 85C

Power

Power - 12V-28V

power input -

Up to 240W

TAA-certified

Design and built in Texas

Connectivity

Fiber connectivity options

Robust and configurable devices deliver fantastic performance particularly when **processing power, graphics-handling capabilities and hi-res multi-monitor arrays are required**

The EdgeCube is a 2U height, small form factor computer. If you require a fully custom build, we offer the option to select from a wide-ranging menu of options that allow you to have the configuration that meets your specific needs.

Use Cases:

- The basic model is a capable desktop workstation for task and knowledge workers, and it can serve as a robust thin client for VDI or remote applications.
- The configurability of the EdgeCube allows it to serve as a branded builder's platform for MSPs selling different configurations for distributed desktop users/DaaS.
- Its enormous storage options could equip the EdgeCube for network monitoring, AI, data modeling. Financial institutions could use the EdgeCube with ECC memory as an option (with the right motherboard).
- Expandable GPU capacity allows the EdgeCube to handle GIS applications, AI, heavy CAD/CAM design, interactive entertainment design and development.
